- **Back-End Development** - C#, JavaScript, Java, C/CPP, Python
- **Web Client Development** - React.js, HTML, CSS
- **Database** - PostgreSQL, MySQL, LINQ, Entity Framework
- **Other Technology** - RabbitMQ, Git, Redis, Serverless Applications, Azure DevOps, Google Cloud Platform

EXPERIENCE

AuditFlo

Pune, Maharashtra

Software Developer

04/2024 - Present

- Led the creation, upkeep, and improvement of strong web tools using **.NET Core Web APIs**, leading to a significant 30% boost in how well the system works.
- Made the most of Entity Framework and **LINQ** to build top-notch APIs that consistently performed better than what's typical in the industry, cutting response times by 25%.
- Played a pivotal role in the modification and creation of dynamic front-end components, harnessing **HTML, JavaScript, CSS, and React** to elevate user experiences.
- Assisted in database migration from Azure to GCP for 3 projects, conducted R&D on Google Storage, and facilitated migration of 5 cloud functions.
- Migrated 3500+ users from ADB2C to Firebase Auth and implemented user authentication for APIs using Google Identities.
- Created a microservice for PDF report generation and zip-compressed PDF downloads, enhancing speed and efficiency.

PROJECTS

AuditFlo

Software Developer

- Collaborated closely with UX designers to introduce user-friendly features like WhatsApp notifications for all the services, leading to a 40% boost in client satisfaction scores
- Implemented vital modules including checklist score and registration flows, real time notifications , WhatsApp AiSensy integration, resulting in a 30% increase in user engagement.
- Collaborated closely with the team to introduce user-friendly features, service level agreement and automated notifications for SLA, enhancing the overall convenience and satisfaction of clients.
- Created automated notifications for audit scheduling and issues, leading to a 20% reduction in client follow-ups.

Reflexion

Software Developer Intern

- Reflexion.ai is a SaaS based media collaboration platform with AI capabilities.
- This project consists of a vast set of microservices in various languages such as **.NET Core , Python, NodeJS** and **React**.
- Which is deployed in a vast set of infrastructure including Kubernetes, Servers, Azure Function Apps, Static Web Apps and other PaaS services provided by Azure.

EDUCATION

Management Science Department, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad

Masters In Computer Applications (M.C.A)

08/2021 - 07/2023

- 9.1 / 10 CGPA

KCES Mooljie Jaitha College, Jalgaon

Bachelor's In Computer Science (B.Sc. CS)

07/2018 - 07/2021

- 9.37 / 10 CGPA
